## EXPERIENCE

---

### **.NET Developer**

July 2019 – Present

*Tata Consultancy Services*

*Chennai, TN*

- Responsible for developing and maintaining internal web applications.
- Primarily used .NET Framework 3.5/4.0 and C# for backend. 20% of my work was doing frontend development, 40% backend development and the remaining 40% was support related tasks.
- Developed Validation Controls for text boxes and performed validations both on client side and server side.
- Created, Modified stored procedures and SSIS packages as per requirement.
- Automated importation of data from Mainframe to our application using their provided service.
- Modified SSIS package to send out alert when received a duplicate record.
- Involved in unit testing and end to end testing.
- Made brief technical documents according to requirement, design and deployment.
- In addition to development, I also helped with end-user support for stakeholders and designated end users when escalated above our support teams.

## EDUCATION

---

### **Karpagam College of Engineering**

Coimbatore, TN

*B.E in Computer Science and Engineering | CGPA: 7.8*

*June 2015 – March 2019*

#### **Coursework on:**

- Design and Analysis of Algorithms
- Operating Systems
- Discrete Mathematics
- Database Management System

## PROJECTS

---

### **Personal Portfolio** | *JavaScript, Html/CSS* | [GitHub](#)

July 2021 – Present

- This static website serves as an online portfolio to showcase my web presence.
- Working on to add my résumé, story and featured projects.

### **Random Advice** | *API, JavaScript, Html/CSS, AJAX* | [GitHub](#)

June 2021 – June 2021

- Simple website that consumes Advice Slip JSON API).
- Generates a random advice every 8 seconds.
- Used AJAX to update advice text on UI without reloading the page.
